

MIKE-O-DRILL DH-60

FEATURES & BENEFITS

- Superior EP and Lubricity Additives
- Low Viscosity
- Excellent Chip Removal
- Improved Finish
- Excellent Blade and Tool Life

PRODUCT DESCRIPTION

MIKE-O-DRILL DH-60 is a heavy duty, light viscosity cutting oil. Sulfurized and chlorinated extreme pressure additives provide hydrodynamic and polar lubrication. This product is recommended for screw machines, chuckers, band saws, and bar machines. The MIKE-O-DRILL outperforms other cutting oils in deep hole drilling, heavy cutting, gundrilling, sawing, and other difficult operations. It is ideal for both ferrous and non ferrous materials. Staining may occur on copper if part is not rinsed soon after machining.

TYPICAL ANALYSIS

APPEARANCE: Dark Oil, Light Viscosity, Slight Sulfur Odor

FLASH POINT: >250°F (TCC Method)

VISCOSITY:68° SUS @ 100°F

WEIGHT: 7.5 LB/GL.

PACKAGING

E-2253-14	1 Gallon (4/Case)
E-2254-05	5 Gallon
E-2255-55	55 Gallon
