

MIKE-O-HONE

FEATURES & BENEFITS

- Excellent penetration
- Promotes the flow of fines
- Improves surface finish
- High Sulfur Content

PRODUCT DESCRIPTION

MIKE-O-HONE is a superior honing fluid for industrial and automotive honing operations. It is recommended for moderate to heavy duty applications. This product does not contain any solvents. This greatly reduces the risk of flash fires associated with honing fluids that contain kerosene and other similar solvents. This product is recommended for ferrous and nonferrous materials. Aluminum and copper based material should be cleaned shortly after machining to prevent discoloration.
