## FOR IMMEDIATE RELEASE

### Ashburn Chemical Technologies Donates to HelpToday Incorporated

HOUSTON, TX. – Ashburn Chemical Technologies, the supplier of [FLUID360™](#) and [FACILITYCARE360™](#) solutions that help our customers GO BEYOND to protect people, processes and production, is proud to have been able to donate Ashburn’s [FACILITYCARE360™](#) products to Houston’s HelpToday Incorporated.

In 1968, Ashburn Chemical Technologies started as a regional manufacturer of metalworking fluids and lubricants in Houston, Texas. Since then, Ashburn has established itself as a manufacturer of an extensive line of metalworking fluids and maintenance chemicals with a focus on products used to cut, clean and protect metal. “Since its inception, Ashburn’s built its foundation on Six C’s: consideration, customer needs, continuous improvement, cash flow, community and common sense,” said Ashburn Vice President of Marketing, Julie Bodine. “These values are at the core of everything we do as a company.”

HelpToday Incorporated transforms lives by providing immediate help to all those affected by life's adverse circumstances. They provide temporary shelter, clothing, food, water and counselling services to the needy and the less privileged. They provide these services with the help of donors and volunteers.

HelpToday Incorporated is a not-for-profit, charity, organization registered under the Laws of the State of Texas. The organization was born out of the sole desire to help and alleviate the sufferings of many through the provision of basic life's amenities and counselling; to help restore all those affected by life's cruel circumstances to normalcy and establish hope and tranquility in their lives.

“I am grateful Ashburn could partner with HelpToday Incorporated, providing them with the industry’s best [FACILITYCARE360™](#) products,” Bodine said. “Ashburn’s goal is to serve the community in which we work and live; partnering with the HelpToday Incorporated furthers that goal.”
