

ASHBURN 2900 RI

FEATURES & BENEFITS

- Water soluble
- Multi-purpose
- Excellent rust prevention
- Soft residue

RUST INHIBITOR

PRODUCT DESCRIPTION

ASHBURN 2900 RI is a multi-purpose, synthetic, water-soluble rust and corrosion preventative designed for in-process protection of ferrous materials. This product will provide up to 9 months of indoor rust protection. Parts protected with 2900 RI can be welded or painted over.

Ashburn 2900 RI can also be used as a parts cleaner to remove dirt, grime and oil from metal surfaces while providing corrosion protection.
